

RUSHED PROFITS SENDS LIST DOWN

Wild Decline in Prices Follows Withdrawal of Vigorous Support.

SLIGHT RALLY AT THE CLOSE

Agitation of Equitable Life Situation Affects Condition of Stocks.

(By Associated Press.)

NEW YORK, July 11.—There was a rush to sell stocks to-day and the strong underlying demand and the vigorous support, which have been in evidence for some time past, were no longer manifest.

Some of the unofficial explanations of this selling pointed to various causes, some of them with a deepening suggestion of dry humor. Profits had become so attractive as a result of the advance, it was explained, that the successful holders were desirous of reducing their holdings and getting away from the intense heat. New doubts were heard of the reliability of many of the recent rumors of intended dividend increases and it was pointed out that many stocks had been advanced ready to a level fully commensurate with the expected dividend increase.

There was really no news of effect in the market, unless it might be the renewed agitation of the Equitable Life affair and the suspicions aroused by the cotton report scandal towards the grain market. The cotton report, which had been worked over in the stock market, had been liquidated in connection with the Japanese loan subscription, and the London market was affected by the same cause. The completion of listings at the stock exchange for the first half of 1905, and of stocks in line with the amount listed in the first half of 1904, the bonds representing new capital raised by 50 per cent. those for the first half of 1901, and more than twice the amount raised in the first half of any previous year, Baltimore and Ohio was the sole remaining point in the market. Last prices were above the closing of the previous year, Baltimore and Ohio was the sole remaining point in the market.
